Take a look at the template examples we've collected and make a selection. Templates are designed with MS Word, you can also see Free Templates in Word. From two Venn circle diagrams to three Venn circles, we designed a free and modern approach to Venn diagrams. This means less search, while adding more transparency. Get info how you can use certificate templates and obtain professional-looking award certificates at almost no time. Microsoft Word comes with a selection of certificate templates to facilitate the process. The instructions in this article apply to Word for Microsoft 365, Word 2019, Word 2016 and Word 2013. The way to make certificates in Word is to use a Word template. There are templates for many occasions, and the text can be modified for your specific prize or event. Here's how to create a certificate in Word. Open Word and select New. In the Search text box, type Certificate to filter for certificate templates. Choose a template and select New. The certificate opens as a new document. To add a custom border, select the Design tab, and in the Page Background group, choose Page Borders. In the Borders and Shading dialog box, select the Page Border tab. In the Settings section, select Custom and choose a border. Choose OK to apply the template border you selected. To change the colors of the certificate, select a different theme. Go to the Design tab, and in the Document Formatting group, select Colors. Hover over a topic to preview it in the document, and then select the color theme you want to use. Save your changes. The text of the certificate is fully editable. Edit the text to say what you want, and then change the font, color, and spacing of the text. In the Word document, double-click the sample text to select it. Select the Home tab. In the Font group, choose a font and font size. Select Bold, Italic, or Underline, if you want. Select the Font Color drop-down arrow and choose a color that will be applied to the text. Type the custom text you want to use. Repeat the process with each text section of the certificate and save the file. You do not need to use a template to create a certificate. Microsoft opens to a vertically oriented sheet of 8.5 x 11, but most certificates are made in horizontal orientation, so it will cause this change to start. To make a certificate from scratch: open a new Word document. Select the Layout tab. In the Page Setup group, select Orientation, and then choose Horizontal. Select the Design tab. On the Page Border tab, select a style or art, assign a size and color, and then select the Icon box. Choose OK to see the result. To adjust margins, select Options and enter new values. Add text boxes to your document and customize the appearance of the font styles, sizes, and colors you want. Save your changes to the custom template. Template.
